Water Savings with Insinger is Not Just a Drop in the Bucket!

With the increasing global demand for water and energy, Insinger recognizes the importance of conserving our planet's natural resources and is taking steps in the right direction by designing and manufacturing equipment that uses our natural resources wisely.

In accordance with the US Green Building Council, our dishmachines use less than 1 gallon of water per rack final rinse.

And along with our patented and proven CrossFire® Wash System, Insinger dishwashers are the most economical, efficient and reliable on the market today.

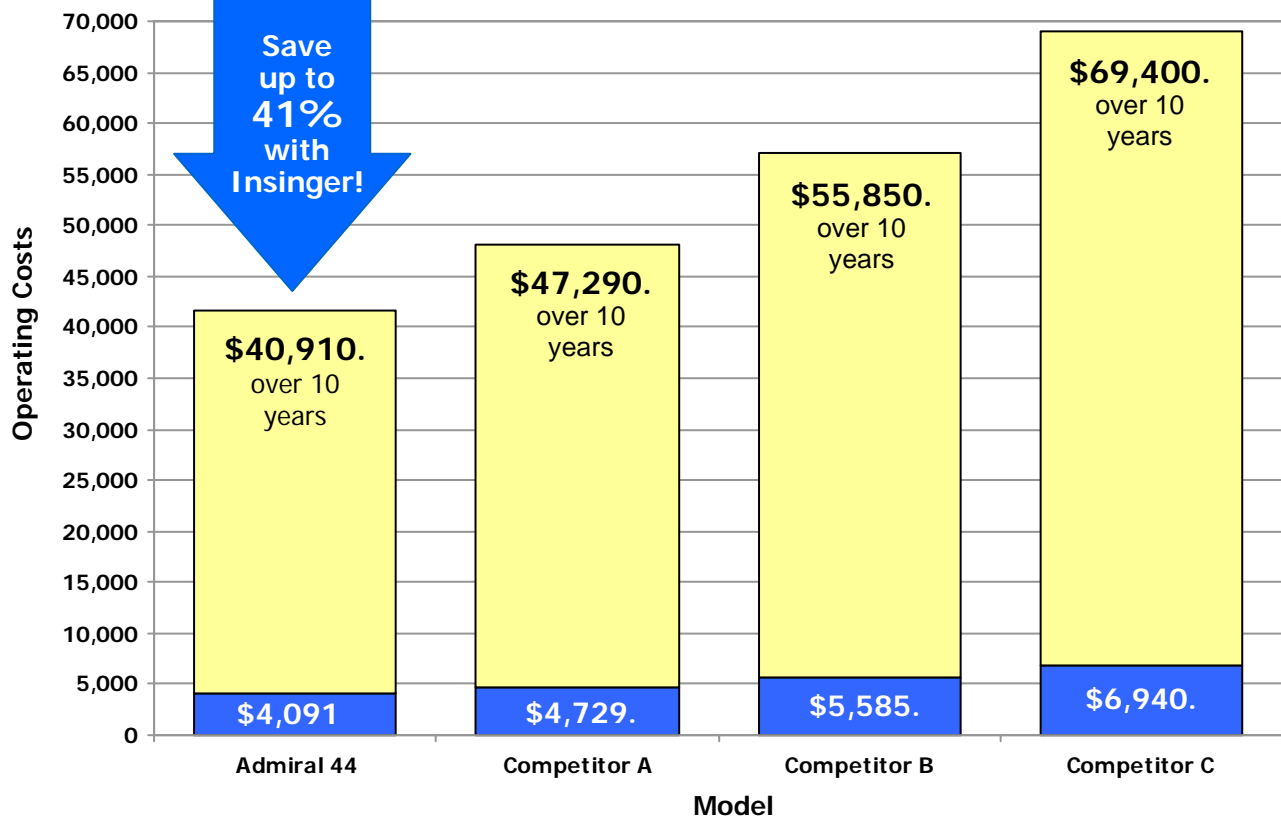

Preserve our natural resources and save money without compromising the clean sanitized results you have come to expect from an Insinger dishwasher.

Call Insinger at 800-344-4802 for more information on saving buckets.

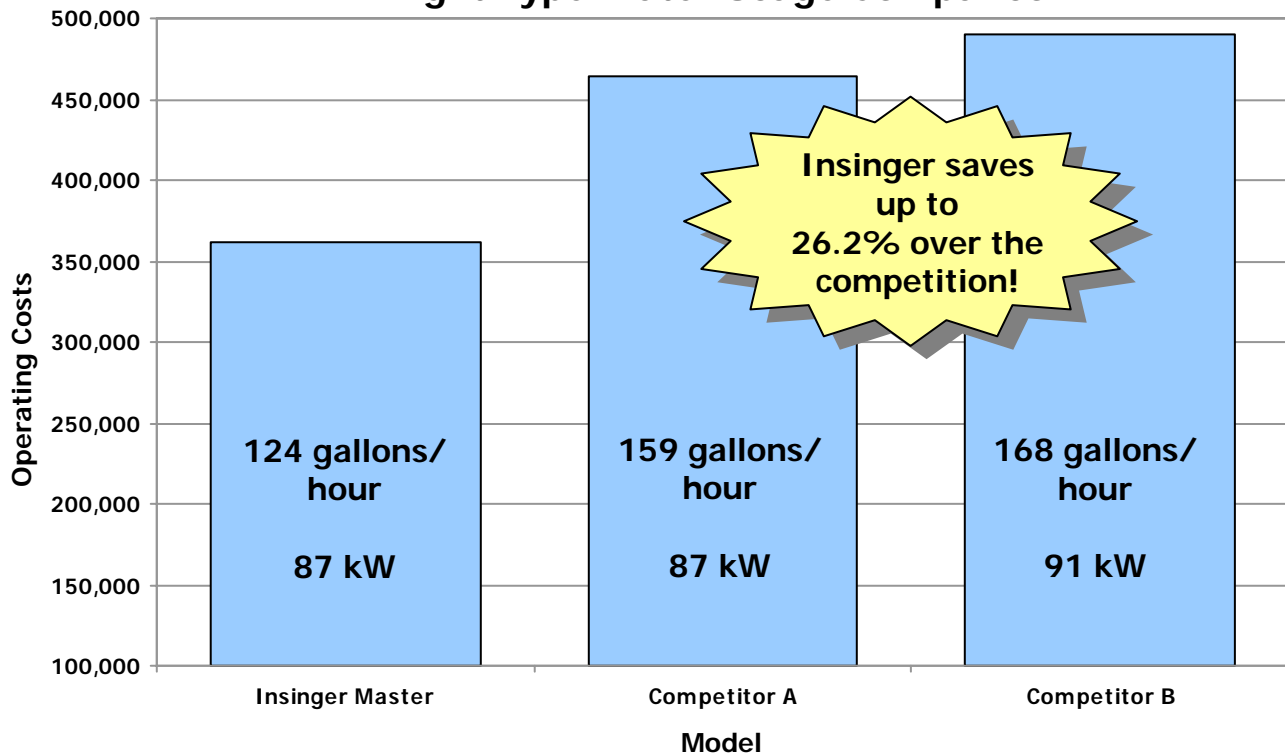

RL-30	Commander 18-5	Admiral 44-4	Admiral 66-4
30 racks/hour 750 dishes/hour 0.79 gals/rack final rinse	60 racks/hour 1500 dishes/hour 0.8 gals/rack final rinse	233 racks/hour 5,825 dishes/hour 0.63 gals/rack final rinse	233 racks/hour 5,825 dishes/hour 0.63 gals/rack final rinse
