

PRESS RELEASE

February 2009

Insinger Warewashers Save Water, Energy and Money.

Insinger unveiled two new features for the Commander Series warewashers at NAFEM '09 that take *green* to a whole new level!

The patent-pending **RackAware™ Automatic Rack Sensing System** only runs a cycle when a rack is placed in the machine. No wasted cycles—save up to \$600. a year on energy, water, chemicals and rinse-aid.

The patent-pending **VaporGuard™ Condensation Removal System** eliminates the need for an externally vented hood. The initial cost savings of hardware along with the perpetual savings of venting room air provide significant operational and ecological benefits.

For over 100 years, Insinger Machine Company has been on the leading edge of commercial dishwasher innovation and technology. Insinger delivers high quality warewashing equipment and service to the hospitality, healthcare, education, corrections and military markets worldwide. Family-owned and privately held, Insinger's corporate headquarters and manufacturing facilities are located in Philadelphia, PA.
